T1 LINE

The straight and contra–angle handpiece range.

Standard and contra–angle handpieces for all electric or air motors with ISO 3964, INTRAmatic® or INTRAmatic®–LUX handpiece coupling.

The ISO interface enables universal use of our straight and contra–angle handpieces at any treatment center of your choice.

Product advantages

ISO

- The ISO interface connects T1 Line with the micro–motor without additional cost

Simplicity

- Interchangeable spray rings for ultra–fast changeover
- Simple repairs and maintenance

Ergonomics

- Smoothly curved contours for comfortable handling in identical grip positions
- Pleasant feeling due to temperature–neutral, non–allergenic Titanium

Hygiene

- Anti–retraction in the spray–water–channel
- Outstanding in sterilization
- Completely sterilizable
- Free of potential dirt traps
